Gulf Autogas (LPG)

<u>Characteristic:</u>	<u>Specification:</u>		
Appearance, colour and odour	Liquefied, colourless liquid with an odour of sulfur		
Density @ 15°C	500 – 600 kg/m ³		
Flash Point	-60°C		
Auto-ignition temperature	>365°C		
Boiling point /boiling range	-42°C - -0°C		
Relative vapour density (air = 1)	> 1 @ 101 kPa		
Vapour pressure @ 20°C	210 kPa – 900 kPa		
Gulf Autogas (LPG) is an extremely flammable liquefied hydrocarbon gas, of mainly propane and butane in variable proportions. (LPG = Liquefied Petroleum Gas)			
Product Code: 2303	Date Issued: 12/10/2010	Supersedes: --/--/----	Revision nr: --
